Certificate Regarding Matching Funds

Leon County

I,, Chairman of the Board of County Commissioners of Leon
County, Florida, do hereby certify that the Board of County Commissioners will provide
matching funds for voter education in county FY 2003-2004 to the Supervisor of Elections in an
amount equal to at least 15% of the amount to be received from the state, which for Leon
County is \$7,028.50. I understand that if the Board fails to appropriate the required matching
funds, all funds received from the state for voter education purposes during the 2003-2004 state
fiscal year will be required to be returned to the Department of State.
Chairman, Board of County Commissioners
Date

FY 2003-04 APPROPRIATION - VOTER EDUCATION

\$2,976,755

2002 General Election - Total number of registered voters in the state

9,302,360

FUNDING LEVEL PER INDIVIDUAL VOTER

SO.32

(Based on FY 2003-04 appropriation for Voter Education divided by the total number of registered voters in the state for the 2002 General Election.)

The Department of State shall distribute funds appropriated for voter education to county supervisors of elections for the following purposes relating to voter education: mailing or publishing sample ballots; conducting activities pursuant to the Standards for Nonpartisan Voter Education as provided in Rule 1S-2.033, F.A.C.; print, radio, or television advertising to voters; and other innovative voter education programs, as approved by the Department of State. No supervisor of elections shall receive any funds until the county supervisor of elections provides to the Department of State a detailed description of the voter-education programs, such as those described above, to be implemented.

The Department shall distribute an amount to each eligible county supervisor equal to the funding level per voter multiplied by the number of registered voters in the county for the 2002 General Election. The Department shall determine the funding level per voter by dividing \$2,976,755 by the total number of registered voters in the state for the 2002 General Election.

In order for a county supervisor of elections to be eligible to receive state funding for voter education, the county must certify to the Division of Elections that the county will provide matching funds for voter education in an amount equal to fifteen percent of the amount to be received from the state. Additionally, to be eligible, a county must segregate state voter education distributions and required county matching dollars in a separate account established to hold only such funds. Funds in this account must be used only for the activities for which the funds were received. Any funds remaining in the fund at the end of the fiscal year shall remain in the account to be used for the same purposes for subsequent years or until such funds are expended.
